

LOCARBO

Novel roles of regional and Local authorities in supporting energy consumers' behaviour change towards a low CARBOn economy

Duration: 2016 – 2020

Programme: The Interreg Europe

Lead partner: Province of Potenza (IT)

Project partners: Hungarian Innovation and Efficiency Nonprofit Ltd (HU), Basilicata Region (IT), Province of Potenza (IT), Kaunas University of Technology (LT), Municipality of Vila Nova de Gaia (PT), Municipality of Avrig (RO), Durham County Council (UK)

LOCARBO targets energy efficiency of buildings by helping regional and local authorities change energy consumers' behavior through supplementary services and products offered by the authorities, innovative cooperation models and innovative smart technologies.
